

There are two ideas that you will need to know going forward in our class. I am sure that you already know the first as we have touched upon it previously. However, the second I would like to take a moment to go over.

1. Compare and Contrast

What does it mean when you are asked to compare and contrast something? Write down your thoughts in the space below. What are you attempting to do when you complete a compare and contrast?

Now let us come together and see if there are any differences in thought. Write any changes needed in the space below.

2. Evaluate

What does it mean to evaluate something? Write your thoughts below.

As before, write any changes needed after the whole class discussion.
